

Greetings. I am a supporter and listener of K-LOVE in San Antonio, Texas, on 91.3 FM. The proposed changes regarding LPFM and translator services is quite disturbing. K-LOVE is strongly supported in San Antonio and has served the city well by providing an invaluable resource: positive, uplifting, family-friendly programming and community updates. Should K-LOVE be unable to broadcast in San Antonio, thousands of people in San Antonio would no longer be able to continuously fill their minds with the positive and beneficial programming (as NONE of the other FM stations in San Antonio fill the need as K-LOVE does). K-LOVE is in the positive interest of the public as they provide a resource that is not found elsewhere, a place of rejuvenation and encouragement in this ever negative, depressing and harsh world. With the numbers of tragedies that hit San Antonio, South Texas, and the world on a daily basis, K-LOVE has consistently provided my family and I with a bright shining light of hope on a daily basis. Please understand the need and great necessity of maintaining regulation that allows for K-LOVE to use translator service at top priority across the country. Sincerely, Lisa Weaver
